BLACKLIGHT FIXTURES

FEATURES

- NO4, NO4S, NO6, NO6S units are constructed of stainless steel
- Strip Fixtures are constructed of polished chrome
- CD6 is constructed of coated steel
- Various configurations available to suit different applications
- A range of wattage in several fixture types
- Compact and lightweight

Applications:

Inspection, Admission Control, Counterfeit Detection, etc.

Shadow® Blacklight Fixtures use blacklight blue lamps that emit long wave ultraviolet radiation and very little visible light. Blacklight lamps produce energy in the long wave UVA region and peak at 365 nanometers (nm).
